

LENAPE PERSON

### **Habitat**

They live in houses called wigwams, made of trees and mud. They built their wigwams near a freshwater source.

### **Food**

They collected Quahogs, fruit, berries and grew corn and other vegetables in gardens.

They hunted for animals like fish, heath hen, and deer.

### **Reproduction**

They raised children in wigwams and on the surrounding land.

### **Ecological Role**

They cut down small trees in order to build their houses.

They burned forests in order to clear trails for hunting, and in order to have clear land for farming.
